ABOUT ME

Passionate and dedicated Full Stack Developer with 1 year of hands-on experience working as a MERN Stack and Mobile Application Developer. Skilled in building end-to-end applications, including eCommerce platforms, project management tools, and secure authentication systems. Trained at SMIT, gaining strong command over both frontend and backend technologies. Currently working as a Full Stack Developer and actively exploring new opportunities to grow, contribute to impactful teams, and develop innovative, real-world solutions.

PROFESSIONAL EXPERIENCE

Full Stack / MERN & Mobile Developer | Code Axis Technologies

- Built a payment-transactions mobile app using React Native, including secure login, transaction history, and real-time status updates.
- Integrated APIs for payments and notifications, focusing on reliability and data security.
- Developed multiple full-stack web applications using the MERN stack, from database design to responsive UI.
- Implemented authentication, role-based access, and reusable components to speed up development.
- Optimized performance and fixed production issues, improving stability and user experience.
- Collaborated with teammates using Git, code reviews, and structured workflows to keep projects maintainable.

KEY PROJECTS & CONTRIBUTIONS:

MediGlobal – Healthcare E-Commerce Platform (React + Firebase)

Developed a healthcare-focused e-commerce web application enabling hospitals and users to buy and sell medical products online.

Responsibilities & Contributions:

- Built responsive and scalable frontend using React
 - Integrated Firebase for authentication, database management, and real-time data handling
 - Implemented product listing, product details, and user interaction flows
- 
- 

- Ensured smooth UI/UX for medical product browsing and purchasing
- Maintained clean component structure and reusable UI components

OenodPay – Digital Banking & FinTech Mobile Application (React Native)

Worked on a feature-rich digital banking application, similar to EasyPaisa, focused on seamless financial transactions.

Responsibilities & Contributions:

- Developed the complete mobile frontend using React Native
- Implemented complex user flows including:
 - Wallet management (Family Wallet)
 - Online transactions
 - Physical & virtual card interfaces
 - Hotel booking module
- Designed intuitive UI for secure and user-friendly financial operations
- Ensured performance optimization and consistent cross-device behavior

Shagrila Student App – Data Collection & Lucky Draw System

Built a student engagement application for college-based data collection and automated lucky draw systems.

Responsibilities & Contributions:

- Designed and developed frontend features for:
 - Student data collection from multiple colleges
 - Automated rolling system to select winners
 - Lucky draw functionality with fair and randomized logic
- Focused on clarity, usability, and transparent result announcements
- Structured the app for scalability and easy data management

Podermonie – Finance-Based Admin Panel (Ongoing)

Currently working on an administrative dashboard for a finance-related platform.

Responsibilities & Contributions:

- Developing a secure and structured Admin Panel

- Handling financial data management workflows
- Implementing role-based features and system controls
- Ensuring clean UI, proper data flow, and maintainable code structure

Tech Stack Used

- Frontend: React, React Native
- Backend / Services: Firebase
- Domain Experience: FinTech, Healthcare, Admin Dashboards, E-Commerce

EDUCATION

Intermediate in Computer Science

Board of Intermediate Education – Hyderabad, Pakistan

TECH STACK

- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Mongoose
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Netlify, Vercel, Render, Railway
- **Other Skills:** REST APIs, JWT Authentication, Role-Based Auth, Firebase, MVC architecture
- **Mobile App development:** React Native

TRAINING & CERTIFICATIONS

MERN Stack Developer (1-Year Training)

Jan-2024 – Jan-2025

Saylani Mass IT Training (SMIT) – Hyderabad, Pakistan

Covered in-depth training on React, Node, Express, MongoDB, API integration, and deployment.
